

Appendix 3.12
JSHP COVID-19 Pandemic “Bubble” Agreement

It is our desire to be able to be in closer contact with one another than is generally permitted under the guidelines for social distancing and the usual requirements of the JSHP program. We understand that this carries with it some degree of additional risk. We agree that we will have closer contact with one another only under the following conditions:

1. We can go into one another’s rooms if invited.
2. We agree that while in the other person’s room we will wear masks, maintain social distancing and use good hand-washing hygiene.
3. We agree that it is permissible to remove masks if eating or drinking but will maintain social distancing and will put the masks back on after eating or drinking.
4. We agree that we will not stay overnight in the other person’s room.
5. We agree that we will not go into anyone else’s room.
6. We agree that if one of us should be required to isolate due to illness or quarantine due to possible exposure to COVID-19, the other will isolate or quarantine until MDH guidelines permit isolation or quarantine to end.
7. We understand that if this agreement is violated that this permission will be rescinded.
